Tub-to-Shower & Walk-In Shower Planning Checklist

For homeowners in Conway and Central Arkansas. Work through this before your free in-home consultation so you get an accurate, written estimate faster.

1. Who will use the shower?

- ☐ Number of people using this bathroom daily
- ☐ Planning to age in place / stay 10+ years
- ☐ Kids or pets who need a tub (keep one tub in the home?)
- ☐ Anyone with limited mobility, balance or joint issues
- ☐ Caregiver may need to help with bathing
- ☐ Wheelchair or walker use now or later

2. Tub-to-shower or walk-in shower?

- ☐ **Tub-to-shower conversion:** replaces an existing tub with a shower in the same footprint; often the quickest option.
- ☐ **Walk-in shower:** a larger or reshaped shower, low or no curb; may involve more layout and plumbing work.
- ☐ Is this the only tub in the house? (Can affect resale for families.)
- ☐ I want a low-threshold entry / I want a curbless (roll-in) entry

3. Measure your space

Measurement	Yours	Measurement	Yours
Tub/shower length		Ceiling height	
Tub/shower width (depth)		Door/opening width into bathroom	
Wall height to be covered		Window in the shower? (Y/N)	

Take photos of the whole bathroom, the tub/shower, the floor and any damage. Our team confirms exact measurements on site.

4. Condition check

- ☐ Soft or spongy floor near the tub
- ☐ Mold or mildew that keeps coming back
- ☐ Leaks at faucet, valve or drain
- ☐ Cracked tile or loose grout
- ☐ Water stains on ceiling below
- ☐ Weak exhaust fan / foggy mirror

5. Style and features

- ☐ Grout-free wall panels
- ☐ Tile look / color: _____
- ☐ Built-in niche or shelves
- ☐ Corner or fold-down seat
- ☐ Glass door / curtain / open entry
- ☐ Handheld shower on slide bar
- ☐ Rain head / multiple heads
- ☐ Anti-scald valve
- ☐ Slip-resistant shower floor
- ☐ Fixture finish: _____

6. Safety and accessibility

- ☐ Grab bars (entry, inside, near seat)
- ☐ Seat height and reach to controls
- ☐ Wider entry for walker/wheelchair
- ☐ Wall blocking for future grab bars
- ☐ Controls reachable from outside the spray
- ☐ Better lighting / night light

7. Budget and timing

- ☐ Comfortable budget range: $_____ to $_____
- ☐ Interested in financing (subject to lender approval)
- ☐ Ideal start date / deadline (guests, holiday, surgery recovery): _____
- ☐ Second bathroom available during the project? (Y/N)
- ☐ Need it done quickly with minimal downtime

8. Questions to ask any contractor

- ☐ Are you licensed, insured, and workers' comp covered?
- ☐ What warranty covers the products and the workmanship, and for how long?
- ☐ Who does the installation: your own crew or subcontractors?
- ☐ How do you handle rotted subfloor or other hidden damage?
- ☐ Is the estimate written, itemized and good for how long?
- ☐ How long will the bathroom be out of use?

9. Notes for your consultation
